Phone: 9578232626 mail: merlinlibinmerlin@gmail.com [github](#) [linkedin](#) [portfolio](#)

Full Stack Developer with 3+ years of professional experience in building scalable web and mobile applications. Currently working at **Naduvan Technologies Pvt Ltd** as a Full Stack Developer. Experienced in developing enterprise-grade applications across multiple domains including fintech, government systems, and service platforms. Strong understanding of SDLC, Agile methodology, and clean architecture principles. Passionate about writing efficient, maintainable, and scalable code.

PROFESSIONAL EXPERIENCE

Software Developer (2024-Present)

Worked as a Full Stack Developer at Naduvan Technologies Pvt Ltd (June 2024 – Present), where I design and develop scalable web and mobile applications using React.js for frontend, React Native for mobile development, and Node.js with Express.js and NestJS for backend services. I build and maintain RESTful and GraphQL APIs, design optimized PostgreSQL database schemas, and implement secure authentication and role-based access control systems.

Software Engineer (2022-2023)

Worked in MBIT Computraining Pvt. Ltd. As a Software Engineer, I contributed to the quality assurance process by conducting thorough requirement analysis and executing manual test cases also do regression, and user acceptance testing.

Junior Engineering (2018-2021)

Worked on safety and security projects at AS Spark Infratech Automation Pvt Ltd.

SKILLS

• SDLC • Jira • Agile • Software Development • Software Testing • Aws lamda • Aws S3 • Git & Github

Frontend: • HTML • CSS • JavaScript • React • Bootstrap • Tailwind CSS • Antd

Backend: • Node.js • Express.js • GraphQL • Rest • Postgresql • MySQL • Socket.io

Mobile Application: • React Native • REST API & GraphQL integration • State management

PROJECTS

• **BigBillion (TeaBoy) – Web, API & Mobile App:** A franchise-based shopping platform enabling franchise owners to order products like milk, tea, and other essentials with online payment and delivery tracking.

• **ECS – Web & API:** A government banking application for employees to manage financial services digitally with secure authentication and ledger management.

• **Epass – Web & Mobile App:** A government e-pass system allowing the public to apply for travel permits to locations like Ooty and Kodaikanal, with officer validation via mobile app.

• **SDAT (CM Trophy) – Web & Mobile App:** A government sports event management platform handling registrations, team management, and multi-category competitions.

• **MASM – API & Mobile App:** A temple services platform supporting large-scale registration, secure ticket booking, and role-based user access. Developed backend systems handling validation, concurrency, and mobile applications.

EDUCATION

MERN Stack Development (2023): Completed MERN Stack Development certification, mastering MongoDB, Express.js, React.js, and Node.js. Proficient in building dynamic interfaces, RESTful APIs, and full-stack applications.

Bachelors in Engineering (2014-2018): Bachelor of Engineering in Mechanical from Marthandam College of Engineering and Technology, Kanyakumari in 2018.
